Quick start guide

1. Install the freeware SimHub:
   https://www.simhubdash.com
2. Start the SimHub program and select
   "Devices" and "add new Device," select
   "SimRaceShop.de – DensuFlag Pro."
3. Connect and route the USB-C cable as
   desired in the cable guide on the back.
4. Attach the mount and the DensuFlag Pro to your rig in the
   correct position to your rig as described in the
   instructions.
5. Connect the DensuFlag Pro to your PC or active
   USB hub using the USB cable.

Commissioning

1. Install the freeware SimHub:
   https://www.simhubdash.com

2. Start the SimHub program and select "Devices" and "add new Device."

3. Under "Hardware – Connect to specific device," select the ID of the connected DensuFlag Pro. This is especially important if

        you have several DensuFlag Pro devices in operation!
